October 19 - 21, 2021

You are entering a contract which limits your possible recovery in case of loss or damage. The terms and conditions set forth below become a part of the contract between Shepard Exposition Services, and you, the Exhibitor.

Exhibitor will be responsible for all charges incurred by Shepard while endeavoring to collect this account. If EXHIBITOR provides a credit card for payment and the credit card transaction is declined, EXHIBITOR hereby authorizes Shepard to process the outstanding balance in multiple smaller increments that total the amount of the outstanding payment obligation. Shepard assumes no responsibility for loss, damage, theft, or disappearance of exhibitor's materials after same have been delivered to exhibitor's appointed carrier or agent for transportation after the show. Shepard loads materials onto the carrier's truck under the supervision of the carrier driver who checks and signs for the materials. Shepard assumes no liability for any materials after the carrier assumes custody of materials. If exhibitor's designated carrier fails to show by the move out deadline after a show, Shepard shall have the authority to route exhibitor's shipment via an alternate carrier, or return shipment to a local warehouse for disposition at exhibitor's expense.

Packaging, Crates, and Empty Containers: Shepard shall not be responsible for surface damage to loose or uncrated materials, pad-wrapped, or shrink-wrapped materials. Shepard shall not be responsible for concealed damage, damage to carpets in bags or poly, or damage to materials improperly packed. Review the target move in floor plan for your designated date and time. Confirm your Target date and time by submitting the Target Confirmation Form. If you need to request an alternate target date or time, submit the Target Change Request.

What is Targeting?

Targeting is the process of systematic freight delivery based on location of booths on a floorplan and exhibitor needs.

- · A scheduled target time means that your freight will begin to be unloaded at some point during your allotted time frame.
- · DO NOT schedule installation labor until after your scheduled target time.
- · The best way to ensure your freight will be delivered to your booth during your scheduled time is to ship your freight to the Advance Warehouse.
- · Machinery, uncrated items, oversized crates, and single pieces over the weight of 5,000 lbs. cannot be accepted at the advance warehouse and should be shipped directly to show site.

Shipping Labels

Shipping labels are included in this manual, please use them to help expedite handling.

Certified Weight Tickets

Certified weight tickets are required for all shipments.

Crated Shipments to the Advance Warehouse

Exhibitors who wish to have their crated material arrive at show site prior to or at their target date/time may do so by shipping in advance to the Shepard Advance Warehouse.

Shipments that arrive at the Advance Warehouse on or before Friday, October 15, 2021 will be delivered to your booth prior to or during your assigned target date/time.

Shepard can not guarantee delivery of late warehouse freight received after Friday, October 15, 2021 for delivery to your booth prior to or at your assigned target date/

Direct Shipments to Show Site

Targeted move-in dates/times have been assigned to all booths. Please refer to the target move-in floorplan included in this manual for your assigned target move-in date/time. All trucks delivering shipments to show site must check-in at the marshaling yard two hours prior to the assigned target date/time. The schedule is either 2 hours prior to the start of the target interval or 2 hours prior to the end of the target time; your presence is not required for unloading.

Off-Target Shipments

It is imperative that you adhere to the Target movein schedule shown on the Target Floor Plan. All trucks delivering shipments to show site must arrive at the marshaling yard either 2 hours prior to the start of the target time. Trucks missing their target time will be unloaded on a first come, first serve basis after the trucks unloaded during their target time.

ALL trucks delivering to show site must check in at the marshaling yard for assignment of dock space. See Material Handling Authorization, Material Handling Information, Target Confirmation, and Material Handling 101 included in this manual.

Unloading

Priority unloading will be given to carriers who are targeted and checked in at the Marshaling Yard either 2 hours prior to the start of the target interval or 2 hours prior to the end of the target time. All others will be unloaded after "on-target" carriers are unloaded. Targeted shipments should be accessible on the truck and not blocked by non-targeted shipments or the nontargeted shipment may be considered off-target.

Shepard crews will make every possible effort to begin unloading carriers during their assigned target unload time.

SHIPPING VS. MATERIAL HANDLING

Make freight management easy.

With Shepard, You Can.

What is shipping?

Shipping is the process of a carrier picking up items from your office or any place of origin and transporting it to the dock of either the advance warehouse or event facility. Shipping is separate from Material Handling. Exhibitors may use any carrier they want, including Shepard Logistics.

What is material handling?

Material Handling is the process of receiving a shipment from your carrier and managing on-site handling of the shipment through the event cycle. It is a standard event procedure with associated costs typically based on shipment weight.

Material Handling Process:

- Unloading freight from your carrier once it arrives at the receiving dock.
- $\boldsymbol{\cdot}$ Transporting freight from dock to your booth space.
- Removing empty shipping containers (boxes, crates and pallets) from your booth.
- Temporarily storing your empty shipping containers during the show.
- Returning empty shipping containers to your booth at the close of event.
- · Transferring your freight back to the loading dock.
- Loading your freight into your carrier's delivery vehicle for return shipping.

One easy way to keep charges low?

Consolidate. Whether you ship to the advance warehouse or directly to show site, it is in your best interest to consolidate your shipment as much as possible. Each shipment that arrives separately is assessed the minimum charge.

So, keep your charges low by skidding items so that they are sure to arrive together.

October 19 - 21, 2021

Special Handling Definitions

Rate as shown on Material Handling Rate Form. approx. 30%.

Shipments received that are packed in a manner as to require additional handling/labor are deemed special handling. Examples of shipments falling into this category would be constricted space unloading, ground unloading, stacked shipments, designated piece unloading, shipment integrity, mixed shipments, no bill of lading or documentation, carpet/pad only

Constricted Space

Freight packed in trailer to full capacity. Shipments are not easily accessible because trailer is loaded by cubic space, or top to bottom and side to side.

Stacked Shipments

Shipments with multiple pieces stacked on top of one another throughout the majority of the truck or trailer requiring unstacking during the unloading process.

Mixed Shipments

Mixed shipments are shipments that contain a mixture of uncrated and crated materials, and the uncrated portion is minimal deeming the shipment special handling but not uncrated. But in cases where greater than 50% of the load by volume is uncrated the load will be categorized as uncrated.

Shipment Integrity

Shipments loaded on a carrier in a manner requiring separating or sorting to reestablish the integrity of each shipment.

Carpet/Pad Only

Carpet and/or pad only shipments are time and labor intensive, and require additional manpower and tools (e.g. carpet poles, flatbed carts or scooters, dollies).

No Documentation

Shipments received from small package carriers (including, among others, Fed Ex, UPS, & DHL) that are delivered without documentation or bills of lading that require additional sorting, processing, and tools for delivery.

Designated Piece Unloading

Shipments loaded in such a manner that require the unloading/loading crew to be directed by driver remove items in a particular order, or unloading and reloading items to reach certain pieces behind others remaining on the trailer.

Padded Van Deliveries

This applies to van line carriers that transport freight at cubic displacement rates, operate a non-standard dock height equipment, require freight on the truck to be unloaded in a specific order or orientation, or require that freight on the truck be moved to unload the actual delivery.

Disposal Fee

A disposal fee & minimum 1 hr. labor will be charged for all booth materials (booth displays, flooring, etc.) that are left unclaimed after show move out.

Overtime/Double-time

Overtime: 30% • Double Time: 50% SURCHARGE:

Shipments that are moved and/or handled on overtime and/or double time hours will incur a surcharge based on the handling times noted on the receiving/shipping documents. Drivers picking up outbound shipments will be sequenced for loading ONLY after a bill of lading is submitted to the Shepard Service Desk AND the driver has checked in.

Warehouse Overtime/Double-time

Overtime: 30% • Double Time: 50%

Advanced shipments may be received during straight time hours at the warehouse location, however an overtime/double time surcharge may be applied to an advanced warehouse shipment due to required delivery schedule based on show move-in and move out hours beyond our control. This would also be true if freight was received after hours at the warehouse trapping facility.

Early/Late Shipments to the Warehouse SURCHARGE: 25% • 35003

A surcharge will apply to shipments not arriving within the published dates (refer to Show Information page for dates) for advance warehouse or arriving on show site after show opening. Any shipment arriving to show site after show open will be charged a surcharge.

Uncrated Shipments

Rate as shown on Material Handling Rate Form

An additional charge of 50% (or as stated on Material Handling Authorization page) of the applicable material handling charge at the time of delivery shall be charged for all loose, uncrated, or unprotected shipments received at the show site docks. The charge is a one-time charge that includes both move-in and move out of the show, and is based on the weight of the shipment handled.

Off-Target Deliveries SURCHARGE:

For targeted shows (exhibitors who received/ requested a Targeted Date/Time), a surcharge will apply if shipment is not delivered (or carrier has not checked in) during assigned target date/time.

Marshaling Yard

\$30 per Shipment • 35250

Where Shepard Exposition Services as the show contractor must lease space for Marshaling Yard operations because no space is provided by the facility, Shepard may charge a one time fee per shipment processed inbound and/or outbound through the Marshaling Yard.

Reweigh of Shipments

\$25.00 per forklift load • 35282

An additional charge per forklift load will be applied to shipments that have to be reweighed at the dock due to the lack of a certified weight ticket, or an incorrect or understated weight on a delivery document.

Empty Crate Storage

\$25.00 per piece • 35105

A charge per crate, carton or skid applies when Shepard handles the storage and return of empties from a shipment not received by Shepard and therefore not subject to material handling charges.

Machinery rates are discounted and no other discounts apply.

**A special handling rate is charged for extra labor or equipment required to unload or load machinery when it cannot be unloaded or loaded with a forklift in a normal manner. Examples of material handling requirements warranting special handling charges are: Rigging equipment on or off of a truck using jacks, chains, rollers, skates, straps, or cables; the use of multiple forklifts due to the length of the machinery or the lack of lifting points on the machinery, or due to the type of vehicle transporting the machinery.

Only Shepard personnel are allowed to operate mechanical equipment. We understand that your calculation is only an estimate. Invoicing will be calculated from actual certified weight ticket or reweigh ticket on inbound material handling receiving report. Adjustments will be made accordingly. Any adjustments to charges must be made at show site. Acceptance of said terms and conditions will be construed when any of the following conditions are met: This Material Handling Agreement (MHA) is signed; Exhibitor's materials are delivered to Shepard's warehouse or to an event site for which Shepard is the Official Show Contractor or an order for labor and/or rental equipment is placed by Exhibitor with Shepard. Please be aware that disposal of exhibit properties is not included as part of your material handling charges. Please contact Shepard for your quoted rates and rules applicable to disposal of your exhibit properties. All Material Handling charges are billable and will be charged to the credit card on file.

SHEPARD GRAPHIC **GUIDELINES** DIRECT TO SUBSTRATE PRINTING.

Ensure your brand is professionally showcased. With Shepard, You Can.

Our talented, in-house design team provides graphic layout services to ensure a seamless transfer of files for print and production. If files are being provided, please provide these guidelines to your designer to use as a roadmap for designing and submitting graphics.

Document Size & Specs

- · All artwork should be created at 100% size at 150 dpi or in a proportionally scaled down format. examples: 50% at 300 dpi OR 25% at 600 dpi
- · Please mark artwork size if scaled down. example: DESIGNED AT 50%
- · All content should be kept within the live area, leave approximately 2" all the way around artwork to ensure sign holder or structure metal does not cut off content.
- · When working between Adobe programs, DO NOT copy & paste objects from Illustrator to InDesign files. This causes objects to not print correctly. Save elements from Illustrator and place them in InDesign.

Acceptable File Formats

Shepard uses the most current version of Adobe Creative Cloud®. If providing native files from another version, please also provide an .idml file. WE DO NOT ACCEPT: Microsoft® Word®, Excel®, or PowerPoint® files.

PROGRAM	FILE EXTENSION	SPECIAL CONSIDERATIONS		
Acrobat	.pdf	Must be high resolution with fonts embedded.		
Id InDesign	.indd or .idml	Images embedded and fonts changed to outlines or send a packaged file with fonts and images.		
Ai Illustrator	.ai or .eps	Vector artwork. Images embedded and fonts changed to outlines or send a packaged file with fonts and images.		
Ps Photoshop	.psd .tiff .jpeg .eps	Raster artwork. Must be built in CMYK color space.		

Color

- · Artwork must be created in the CMYK color space.
- If **PMS color matching** is required during the printing process, please use Pantone®+ Solid Coated swatches in your artwork.
- · Converting color from RGB to CMYK will change the vibrancy and the look of some effects, DO NOT design artwork in RGB. Colors may vary due to output devices.

RGB Color Space.

CMYK Color Space.

Fonts & Links

If creating artwork in Adobe® InDesign® or Illustrator® there are two options when supplying fonts.

- · Change fonts to outlines. This prevents fonts defaulting or being substituted throughout the layout and production process. REMEMBER: if creating outlines, text is no longer editable.
- Package the fonts. From InDesign or Illustrator select File → Package → Check "Copy Fonts" and submit PC format TTF fonts or OTF fonts with your artwork.
- · Package the links. From InDesign or Illustrator select File → Package → Check "Copy Linked Graphics" and submit all images with your artwork.

SHEPARD GRAPHIC **GUIDELINES** CONTINUED

Artwork can be created in several ways. Here are some things to consider.

Vector

- · Vector-based artwork is resolution independent and can be enlarged or reduced without loss of quality.
- · This is the preferred file type and is most often created in Illustrator and used for creation of logos and icons.

Raster

- · Raster-based artwork is resolution dependent and will reproduce poorly if the appropriate file resolution is not supplied correctly.
- If supplying raster art, it is best to save your artwork in a 1 to 1 (full size) output ratio at 150 dpi or higher. Lower resolutions (1MB or smaller) will result in reduced image quality. File size should not exceed 200MB (if possible).
- · Raster images are most often created in Photoshop and is most often used for photographic images.

Vector Logo at 100% scale.

Raster Logo at 100% scale.

Resolution

· Artwork should scale to 150 dpi at 100% scale to ensure the artwork remains high resolution when printed at full size. See examples and samples below.

HANGING'SIGNS 101 THINGS TO KNOW.

All signs must be designed to comply with Show Organizer rules and regulations and facility limitations. Shepard is responsible for assembly, installation, and removal of all hanging signs, overhead truss, attachment and removal of light fixtures for truss and lights, as well as any additional installation required for chain motors, span sets or other packages.

Only Shepard personnel are allowed in aerial lifts or operate mechanical equipment.

Only Shepard certified riggers can install and remove any and all hanging materials that will be flown overhead.

All signs, with the exception of banners, must have structural rigging points and signs exceeding 200 pounds must include detailed construction plans with a current structural engineer's stamp. Send these plans to Customer Service in advance of the first day of move in.

Include engineer-stamped drawings with hanging instructions as well as a set of assembly instructions (placement/orientation/height from floor) with the order. Shepard accepts no liability for any work completed without such instructions, when required.

If your sign requires electricity, make sure it is in working order and in accordance with the National Electric Code.

Overhead Signs should be sent in a separate container directly to the advance warehouse using the Advance Hanging Sign Shipping Label.

Additional charges may be applied by Shepard due to regulations at the facility, weight limits, union jurisdictions, facility contracts, and in house providers. Including but not limited to: spanner truss for load points, additional labor for power and/or lighting specifics, additional materials, facility pick point ceiling fees, facility and/or in house exclusive labor charges, etc.

LABOR

Florida is a "right to work" state. Exhibitor personnel may set up their own exhibits if so desired using their own tools and company personnel. Union Labor is available to assist in the installation and dismantling of exhibit booths. Exhibit labor, freight and rigging labor, electricians and plumbers can be arranged for at established rates, using the enclosed order forms.

EXHIBIT LABOR JURISDICTION

Union exhibit labor claims jurisdiction for the installation and dismantling of prefabricated exhibits and displays when this work is done by persons other than company personnel. They may be employed by completion of labor forms enclosed in this manual.

Union Labor is not required to put your products on display, to open cartons containing your products, nor to perform testing, maintenance or repairs on your products.

If, however, you hire any labor to assist you, it must be through the Official Contractor or a contractor which meets all of the regulations as an Exhibitor Appointed Contractor.

MATERIAL/FREIGHT HANDLING JURISDICTION

Shepard Exposition Services has the responsibility of receiving and handling all exhibit materials and empty crates. It is Shepard's responsibility to manage docks and schedule vehicles for the smooth and efficient move-in and move-out of the exhibition. Shepard will not be responsible, however, for any materials they do not handle. Shepard will have complete control of the loading docks at all times.

Exhibitors may hand-carry their own materials into the exhibit facility; however, the use or rental of dollies, flat trucks, pallet jacks, and other mechanical equipment is not permitted.

Vehicles must not be left unattended at the loading areas. Any unattended vehicles will be towed at the owner's expense.

The Fire Marshal absolutely prohibits the storage of empty containers in the exhibit hall. Arrangements have been made with Shepard Exposition Services to store empty crates. Please refer to the Material Handling Information sheet in this service manual for the handling of empties, disposal of skids, etc.

GRATUITIES / BREAKS

Tipping is expressly prohibited. This includes such practices as giving money, merchandise, or other special consideration for services rendered. Do not give coffee breaks other than mid-morning and mid-afternoon, when the union has a 15 minute paid break. Meal breaks are one hour. Any attempt to solicit a gratuity by an employee for any service should be reported immediately to Shepard Exposition Services.

IN GENERAL

Exhibitors do not have to respond to grievances or complaints from union and trade personnel with respect to work jurisdictions. Please refer all such disputes and/or questions to Shepard management personnel immediately.

SAFETY

Safety of everyone working in the hall is of our utmost concern at all times. Standing on chairs, tables and other rental furniture is prohibited. This furniture is not engineered to support your standing weight. Shepard Exposition Services cannot be held responsible for injuries or falls caused by the improper use of this furniture. If assistance is required in assembling your booth, please order labor on the Labor Order Form included in this manual and the necessary ladders and tools will be provided.

An accurate diagram indicates the quantity and location of outlets, as well as the booth's dimensions and neighboring booth/aisle numbers for orientation. Orders without full payment will not be processed and service will be withheld.
- 2. Rates are based on when an exhibitor's order, payment AND finalized diagram is received by OCCC. Revised diagrams will affect rates.
- 3. Orders received during move-in and/or on-site are subject up to a 50% price increase over base rates.
- 4. Modifications to incentive rate orders received after the incentive deadline are subject to base rates or on-site rates.
- 5. Refunds for issues or unused services will not be considered unless filed by the exhibitor before the close of show at the OCCC Service Desk.
- 6. Notification of cancellation must be received in writing prior to the first scheduled show management move-in date to receive a refund.
